EXPERIENCE

Tech1m, Lagos, Nigeria — *Senior Software Engineer*

OCTOBER 2022 - PRESENT

- Architected and deployed scalable APIs across AWS, Cloudways and VPS infrastructures.
- Led CI/CD automation using GitHub Actions, Docker and Ansible, improving release velocity and reliability.
- Optimised SQL/NoSQL databases, enforced security/TDD standards, and ensured system resilience.
- Mentored engineers through code reviews and pair programming, improved team workflows, and contributed to high-impact architectural decisions.
- Drove Agile delivery across multiple projects, ensuring predictable and production-ready releases.

Tedbree, Lagos, Nigeria — *Fullstack Engineer*

APRIL 2021 - OCTOBER 2022

- Designed and built scalable REST APIs and backend services for diverse web and mobile platforms using Laravel, FastAPI, and Node.js. Orchestrated integrations with critical third-party services (e.g., payment gateways, geolocation, SSO, social auth) to drive core user flows and business logic, improving development efficiency and system reliability.
- Developed interactive admin dashboards and CRM systems using Inertia.js, Laravel, Vue.js, and React.js, improving operational efficiency for client teams.
- Engineered custom WordPress themes and plugins, optimized performance, and built integrations with external SaaS platforms to extend site functionality.
- Improved database performance across SQL and NoSQL systems through query optimization and indexing, delivering optimized full-stack solutions that enhanced application responsiveness for client projects.

Veci Technologies, Ibadan, Nigeria — *Web Developer*

SEPTEMBER 2017 - MARCH 2021

- Delivered dynamic and static websites using CodeIgniter, Laravel, PHP, MySQL and JavaScript.
- Developed custom WordPress themes/plugins and resolved complex compatibility and performance issues.
- Designed relational databases, managed hosting environments, and handled domain setup and renewals.
- Deployed websites via cPanel and FTP while maintaining client-support workflows.

TECHNICAL PROFICIENCIES

Languages: PHP, JavaScript, Python, Go

Backend & APIs: Laravel, Node.js, FastAPI, Express.js, REST API Design, Third-Party API Integration

Frontend: React, Vue.js, Inertia.js

Databases & Storage: MySQL, PostgreSQL, MongoDB, Firebase

Cloud & DevOps: AWS (EC2, RDS), Cloudways, Docker, CI/CD (GitHub Actions), Ansible

Tools & Workflow: Git, GitHub/Bitbucket, VS Code

ENGINEERING PRACTICES & METHODOLOGIES

Software Architecture & System Design

Agile/Scrum Development & Project Leadership

Test-Driven Development (TDD) & Code Quality

Database Design, Optimization & Security

Containerization & Microservices Principles

Technical Mentorship & Code Review

Debugging & Performance Optimization

LANGUAGES

English

EDUCATION & CERTIFICATIONS

The Chartered Institute of IT(BCS), London, UK
Higher Education Qualification (HEQ) in IT | April 2022

Osun State University, Osogbo, Nigeria
Bachelor of Engineering (B.Eng.) in Civil Engineering | September 2015

REFEREES
